

## Plumbing Equipment - Mixing Valve

- Mixing valve gives the user temperature constant warm / hot water by mixing cold and hot waters and thermostatically adjusting mixed flow to the desired set temperature.
- Solar systems in summer time may over heat water which may cause harm to inhabitants. Using mixing valve will supply temperature set hot water and prevents from skin burns and damages.

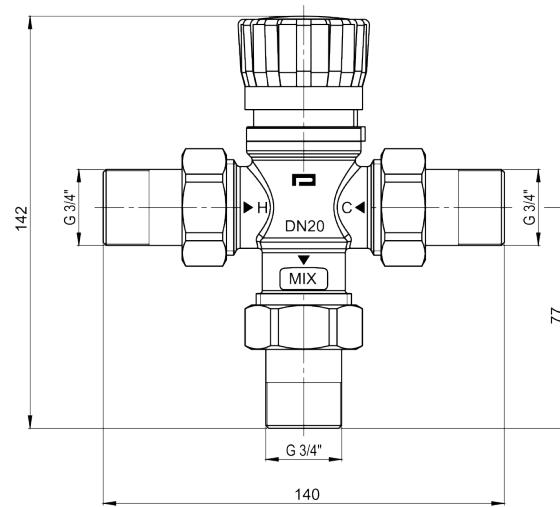

### Usage Properties

Fluid Temperature	· 110 °C
Storage Temperature	· -40 ... +70 °C
Max.Pressure	· PN 10

### Constructive Properties

Case	· Brass - Nickel Plated
Connection	· G 3/4"
Water Temperature Range	· +30 °C...+65 °C
Sealing	· Viton
Knob	· ABS
